## EXPERIENCE

### Full Stack Developer - BLAK Fintech

Culver City, CA — 2017 - Present

The BLAK Wealth web platform is a financial education resource with a focus on the financially excluded and disadvantaged. The platform hosts video and image content, and allows contributors to create customized learning pathways targeted around specific financial-literacy topics. The site is constructed as a single-page application, using AngularJS components and UI Router.

Led the development of the site's user-authentication system. Designed and implemented the front-end user interfaces used for login, signup, and password-recovery workflows. Implemented the cryptography and security for secure operations of those workflows.

Technologies used include Visual Studio 2017, SQL Server Management Studio, Team Foundation Server (TFS), Chrome Developer Tools, Transact-SQL, JavaScript, Web API 2, JSON serialization, AJAX, jQuery, AngularJS, Bootstrap 3.0, CSS, AWS S3, Attribute Routing, D3.js, SignalR, and Trello.

### Web Developer, Samy's Camera

Culver City, CA — 2016 - 2017

Samy's Camera is an online professional photography and video equipment website. The online web property is managed on a content management system.

Collaborated with marketing, customer service, buying groups, and web development team to develop short and long-term growth strategies. Monitored and tracked performance of all SEO & SEM initiatives while assisting with day to day management of the site to ensure online experience is conducive to sales. Experience with working with CMS to include building new features for admins to use. Designed landing pages, brand pages, newsletters, and implemented marketing platforms such as MailChimp and WordPress.

### Logistics Management, U.S. Air Force

Fort Lewis, WA — 2008-2012

-Supervised Asset Management Team and performed operations involving storage, inspection, identification, and receipt of property and weapons for training and deployment using data queries.

-Developed key soft skills such as decision-making, resourcefulness, teamwork, performing under pressure, leadership, flexibility, attention to detail, and self-motivation.

## EDUCATION

### Antioch University

B.S. Computer Science — 2017 - Present

### California State University, Los Angeles
